Developer and Programmer

Profile

I'm a 21 years live in Nonthaburi and studying at King Mongkut's University of Technology North Bangkok (KMUTNB). I used to work on desktop web application development. Including ever developing a system or desktop program to be able to work within the specified scope and have some ml and deep learning knowledge

Education

- Bachelor's Degree 2020 – Present

Computer Science Mathematics (MC) at King Mongkut's University of Technology North Bangkok (studying) GPA 3.0

Skill

Language

- Html & CSS
- JavaScript
- C#
- python
- SQL

FrameWork

- Angular
- Vue (Nuxt)

Database

- SQL Server
- Sqlite

Experience

Work

1 June 2021 – 1 January 2022

Used to work part-time at Aston. Act as a front-end developer with Vue (nuxt.js) alongside Vuetify. Most of the work is to create a UI to get data from employees and send it to the backend to store data in the database.

Project while studying

- 2048 game (C#) in Year 1
 - Bomber man game (C#) in year 2
 - Shopping manager Pos (C#) in year 2
 - Shopping API (asp.net C#) in year 2
 - Shopping website (Vue nuxt.js Vuetify) in year 2
 - Shopping manager program (C# desktop application) in year 2
 - Make a database to store data for a shopping system with SQL server in year 2
- can view the project at Github: ATIPPAz.

Experience

Hackatrain By DevMountain #2

- Convert format data csv to xml and xml to csv
- Database Migration (SQLite)
- Chat App with Vue (web socket)
